

# SORBITEC FG™

## multi-purpose absorbent

- A **multi-purpose dense granular absorbent**  
– ideal for indoor or outdoor use
- Formulated to **absorb all types of aqueous solutions** (acids, bases, glycol, spirits, paint, water, oil, chemicals, and emulsions) and **all hydrocarbons** (motor oil, gasoline, diesel, hydraulic fluids, etc.)
- **SAFE! Flash point >2,300°F / >1,200°C**, prevents **auto ignition, spontaneous combustion, and static charge ignition**
- Total encapsulation, **non-leaching ABSORBENT**  
– Not an **ADSORBENT**
- **Non-intrusive, non-abrasive, and non-flammable**
- **Dust free** and easy to handle – harmless to humans and wildlife.
- **Absorbs odors** and **suitable for food applications**
- **Leaves surfaces film-free and dry**
- Will **absorb acids** of concentrations up to 30%
- Saturated granulate can be disposed of with normal waste or **can be bioremediated**.

(Note: Disposal is subject to provincial/state/federal regulations)

Distributed By:

### Verifications available upon request

- Toxicity characteristic leaching procedure (TCLP) EPA 1311
- Canadian General Standards Board "Method of Testing Sorbent" - (CAN/CGSB 183.2 - 94)
- Complies with EPA Toxic Substance Control Act (TSCA)
- Material Safety Data Sheet (MSDS)
