

SORBITEC HG™

bulk hydrophobic granulate

Sorbitec HG Bulk Granulate

SHG-BG-100/50/25

Sorbitec HG Granulate is designed for oil-only applications where oils, emulsions, and liquid fat need to be rapidly and totally absorbed.

Sorbitec HG Granulate will continue to float on water when fully oil-saturated, or can be used in shops, garages and other areas on land where high volumes of oil need to be quickly absorbed.

Use on water to remove oil films, or as an effective filtering medium to separate oil from liquids.

Sorbitec HG High Capacity Granulate is kind to the environment, due to Sorbitec's eco-friendly biodegradable composition.

Contents:	Carbon, nitrogen, water, ammonium phosphate, water-soluble salt, formal in
Density:	80 grams per litre (.08 g/ml)
Standard packaging:	100 liter bags (20 per pallet)
Custom packaging:	Custom packaging available. Call for information.
Absorption capacity:	80 – 90 liters of oil per bag
Note:	Does not leach - absorbed liquids are totally encapsulated inside granulate! Biodegradable.

Deposition: Sorbitec may be disposed of with your ordinary trash, but as with any hazardous content, they should always be disposed of in accordance with local environmental regulations. Sorbitec products are biodegradable.
