

PLUG N DIKE

Plug N Dike paste instantly sticks to metal drums and fuel tanks. Stops leaks during emergency spills, protecting workers and the environment.

- Bentonite Glycol mix provides excellent chemical resistance for fuel leaks.
- No surface preparation required, easily sticks to dirty or rusty surfaces.
- Premix is ready to use immediately.
- Primarily used for fuels and non-miscible solvents.
- Not recommended for plugging containers of antifreeze, acids, caustics, or oxidizers.
